10 odpowiedzi

SUMMARY

- 10 Lithuanian students took part in the questionnaire, 5 boys and 5 girls aged 11-14.
- They take part in 11 after-school clubs.
- They all like these classes, 70 % of students say they are very useful, 20 % - maybe.
- 50% of students said they are considering a career in the subject of after-school clubs they are attending, 40 % said that maybe they will.
- Most students admit that participating in after-school clubs raises their motivation, self-esteem, they can develop their creativity and they learn new things. They also add that they spend their time the way they like, learn from working with their friends, have a purpose in life and can develop their interests or hobbies.
- A great majority admits that they have increased their motivation for learning while working within the clubs.
