10 odpowiedzi

What benefits do you notice from attending after-school clubs of your choice?

10 odpowiedzi

On a scale from 1 to 5, how big is your motivation for learning?

10 odpowiedzi

Summary:

- Taking the above data into consideration it can be said that most students in 'Geo Milev' primary school have a high motivation for learning and they willingly participate in the after-school clubs their school has on offer. Active participation in the clubs enables them to learn new things, develop their creativity, spend time in the way they like and, last but not least, they feel their self-esteem is higher and they have a purpose in life.
