"After School Clubs to Increase Motivation and Prevent Dropout" No. 2018-1-PL01-KA229-050748

What gender are you ? 25 responses

How old are you? 25 responses

What after – school club do you participate? 25 responses

From the graphic above, we understand that each student chooses a different club according to their own interests, likes, needs etc...

Do you like these classes? 25 responses

Nearly all students love the clubs they join as they join them because they want to, not because their families or their teachers want...

Do you think these classes are useful?

25 responses

We see that none of the students think these classes are useless.

On the contrary, most of them think these classes are useful.

Do you consider a career in the subject of after-school club you have chosen? 25 responses

It is seen that the graph data are very close to each other because we know that the reason for each student to choose an after-school club is different, some choose according to his interest, some choose according to his needs that's why while some of the students consider a career in the subject of their after-school club, some of them don't consider.

What benefits do you notice from attending after-school clubs of your choice? 25 responses

It is obvious that after-school clubs have benefits in many ways for students. According to the graphic below most of the students learn new things in these clubs so it could mean that these students also have a motivation for learning while attending these after-school clubs. They enjoy themselves happy and free, too.

On a scale from 1 to 5, how big is your motivation for learning? 25 responses

More than half of the students have a big motivation for learning so it is clear After-school clubs motivate the students for learning.

To sum up the results of the questionnaire we applied to our students,

Most of our students choose different after-school clubs from each other and they choose these clubs because of different reasons, too.

No matter why they choose these clubs but they choose and they take advantages of them in many ways. The most important benefit of these classes is MOTIVATION FOR LEARNING because it is obvious that our students have fun and feel free while learning new things with this motivation. We are sure that if this motivation goes on, the students will love their schools and lessons more and they will change their attitude towards schools.
